Elements of a BW/BI Report - Overview

The *Elements of a BW/BI Report* section provides an overview to the BW/BI Custom Reports structure and overall report functionality.

Topics covered in this section include:

1. BW/BI Report Name
2. BW/BI Report Toolbar
3. BW/BI Navigation Block
4. BW/BI Report Results

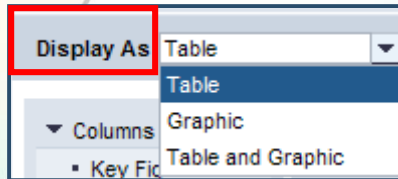

The screenshot shows a web-based report interface for 'Minority Distribution'. The interface includes a toolbar with options like 'Display As Table', 'Information', 'Send', 'Print Version', 'Export to Excel', and 'Comments'. A navigation block on the left allows users to expand and collapse sections like 'Columns', 'Rows', and 'Free characteristics'. The main area displays a table of results with columns for 'Personnel Area', 'Gender', 'Ethnic Origin', and 'Full Time Class # of Employees'. The table shows data for 'House of Representatives' with rows for 'Female' and 'Male' under '10/Not assigned'. Red brackets and numbered circles (1-4) highlight the report name, toolbar, navigation block, and results table respectively.

Minority Distribution				Full Time Class # of Employees
Personnel Area #				
Gender Male				
Ethnic Origin 99/Not assigned				
Result				
unknown 99/Not assigned				
Result				
Result				
0110	House of Representatives	Female	10/Not assigned	
White/Not Hispanic origin				
Result				
Male 10/Not assigned				
American Indian/Alaskan				
Black/Not Hispanic origin				
White/Not Hispanic origin				
Result

2. BW/BI Report

Toolbar

The Toolbar provides additional report options. Below is a summary of toolbar functionality:

Display as allows the user to determine how the report is displayed.

Displays information about the report. Such as selection criteria, when it was generated, and who the user was.

Send allows the user to send the report through the BEx Broadcaster.

Print Version allows the user to set the print parameters (displays report in PDF).

Export to Excel allows the user to export the report to Microsoft Excel.

3. BW/BI Navigation Block

The **BW/BI Navigation Block** allows the user to modify the layout and results of the query. The navigation block displays characteristics and structures of the query. The user may change the navigation status and add/remove characteristics and key figures within a row or column. The user may also filter according to a single value or remove filters using this tool.

Characteristics and Key Figures are added and removed report results with the Drag&Drop method.

4. BW/BI Report

Results
Report results are displayed using rows and columns. Usually report Characteristics are displayed in the rows of the report and Key Figures are displayed in the columns of the report.

In the sample below, the Characteristics displayed in the rows of the report include Organization Unit, Ethnic Origin and Gender. The Key Figures displayed in the columns of the report include Full Time Classified, # of Employees, etc.

Characteristics:

Descriptive fields that provide context for the key figures in BW/BI reports - these are typically **rows**.

Key Figures:

Numeric fields that are the object of analysis in BW/BI reports, such as number of employees, number of positions, annual salary, etc - these are typically **columns**

0110	House of Representatives	Female	240	49,878	1	41,796	241	49,845
		Male	179	48,833			179	48,833
		Result	419	49,432	1	41,796	420	49,414
0120	Senate	Female	206	46,462	1	11,346	207	46,292
		Male	175	47,553			175	47,553
		Result	381	46,963	1	11,346	382	46,870
